

ANNOUNCING A NEW PROGRAM SERIES ON
COMMUNITY RESILIENCE

AT THE KOSHLAND SCIENCE MUSEUM

Everyone has a story to tell about their experience of a natural or human-made disaster. Why do some communities bounce back and others do not? How can we prepare for, respond to, and recover from disasters?

The Koshland Science Museum will launch a new *Science Social* program with three events in fall 2013 focused on community resilience. Stay tuned for new interactive museum features and more events to come in 2014!

WEDNESDAY, OCTOBER 9, 6:30 – 8:30 P.M.
IS COMMUNITY RESILIENCE REAL OR FICTION?

Is building community resilience possible or just wishful thinking? Mix it up with disaster expert Gerald Galloway and join a lively discussion about community resilience. No preparation or expertise required—bring your questions and ideas.

\$10/adults, \$7/students

WEDNESDAY, OCTOBER 30, 6:30 – 8:30 P.M.
EXTREME EVENT CHALLENGE

Immerse yourself in a challenging group game in which your team must prioritize and collaborate to survive a fictitious disaster. With fun group dynamics and a surprising twist, the game will raise real-world questions about what it takes to make our communities more resilient.

\$10/adults, \$7/students

SATURDAY, NOVEMBER 16, 10:00 A.M. – 5:00 P.M.
**RESILIENCE IN YOUR NEIGHBORHOOD:
A COMMUNITY EVENT**

During this special all-day event, families and adults are invited to enjoy hands-on activities, meet disaster experts and emergency responders, and learn how to build a more resilient community.

\$7/adults, \$4/students and active military

Email ksm@nas.edu to sign up for resilience programming updates.
